ANSWERING REVIEWERS

Reviewer's code: 03648840

1- In the abstract, conclusion section needs to be revised to be more informative. 2- The introduction section is very brief and needs to be improved by adding more studies. 3- Discussion section is very long and needs to be summarized.

1- In the abstract, conclusion section needs to be revised to be more informative.

Our response:

Thank you for your kind advice. Revised as suggested.

2- The introduction section is very brief and needs to be improved by adding more studies.

Our response:

Thank you for your excellent advice. Revised as suggested, please see "INTRODUCTION", We added more information about the current anti-scar measures, the psychological status and effects of burn patients, and briefly described our post-burn treatment of burn patients and their prognosis.
