Dear editor,

Please find attached files of revised manuscript in word format

Title: Percutaneous fixation of neonatal humeral physeal fractures: case report and literature review

Author: Wei Tan, Fu-Hua Wang, Jing-Hui Yao, Wei-Ping Wu, Yi-Bin Li, Yue-Lun Ji, Yue-Peng Qian

Name of Journal: World Journal of Clinical Cases

Manuscript NO: 55423

First of all, we would like to thank World Journal of Clinical Cases for giving us the opportunity to revise our manuscript. We thank the reviewer, Professor Salvadori, for his/her careful read and a high appraisal to our article. No any suggestion for revision was proposed by the reviewer. We have added six references published in the last 3 years to our manuscript as the requirement of science editor.

Reviewer: 00503243

Scientific Quality: Grade A (Excellent)

Language Quality: Grade A (Priority publishing)

Specific Comments To Authors: This case report is extremely important and should be diffused as much as possible. The manuscript is well written and complete in any section. Due to the rarity of the disease is extremely

important that doctors and nurses facing with such problems be aware of this case report

Conclusion: Accept (High priority)

Reply: Thank you for your very high evaluation of our article. We hope this case report can be spread as you said so that doctors and nurses can handle such cases with more options.

Thank you again for publishing our manuscript in the World Journal of Clinical Cases.

Yours sincerely,

Wei Tan
