

Dear reviewers,

We deeply appreciate your consideration of our manuscript and your kind suggestions.

Here we have revised our manuscript according to your suggestions.

Reviewer #1:

Point 1. We reviewed the case by Yabuuchi, Y *et al.* and added it into the introduction section, discussion section and Table 1.

Point 2. The patient received 6 cycles of chemoradiotherapy (175mg/m<sup>2</sup> of paclitaxel and 80mg/m<sup>2</sup> of nedaplatin at first day) and 25 times of radiotherapy with a total dosage of 45Gy (1.8Gy per time) from August, 2018 to March, 2019. Detailed description was added into the outcome and follow-up section and time-line.

If you have any other doubt, please do not hesitate to contact us.

Yours sincerely,

Bing Hu
