

Reviewer #2:

**Scientific Quality:** Grade B (Very good)

**Language Quality:** Grade B (Minor language polishing)

**Conclusion:** Minor revision

**Specific Comments to Authors:** The manuscript is very well written. It's an excellent study which aims to evaluate the pharmacokinetic characteristics of esomeprazole magnesium enteric-coated capsules in healthy subjects in China and to assess the bioequivalence of the two formulations. The test formulation of esomeprazole magnesium enteric-coated capsules is equivalent to the reference formulation under both fasting and fed conditions. Comments: 1. The methods are described in detail. Inclusion and exclusion criteria are clear. 2. Results are very interesting. The data in tables are excellent. 3. References. The references should be revised according to the format. 4. Some minor language polishing required a minor editing.

Dear reviewer:

I am very grateful to your comments for the manuscript. According with your advice, we amended the relevant part in manuscript. Some of your questions were answered below.

Reviewer #2:

Comment 3: References. The references should be revised according to the format.

Response: Reference documents have been revised according to format requirements.

Comment 4: Some minor language polishing required a minor editing.

Response: According to the revision suggestions, the language was polished again.
