

Dear Editor:

We are very pleased to receive your email.

Reviewer 00052063 comments: This is a case report of neurofibromatosis detected by a gene analysis, showing the utility of gene analysis in the diagnosis of neurofibromatosis. Previously there were many types of mutation in this disease, then gene analysis has not been fully introduced.

Response: We have revised the manuscript according to the comments and suggestions of reviewers, and we wish it can meet the requirements for final acceptance and publication.

Thank you for your consideration. I look forward to hearing from you.

Sincerely,

Zhuo Zhiqiang, Department of Infectious Diseases, Xiamen Children's Hospital, Xiamen, Fujian, 361006, [China].
