

## 57982-Answering Reviewers

Reviewer #1:

**Scientific Quality:** Grade C (Good)

**Language Quality:** Grade B (Minor language polishing)

**Conclusion:** Accept (General priority)

**Specific Comments to Authors:** the manuscript deals with one of the anatomical and pathological anomalies, the author spot the light on it from his experience. anatomical variations take a wide interest for surgeon as they may face it during their daily work. nice case report.

Answer #1:

Thank you for your thorough and kind review.

I did my best as a non-native English speaker, and I once again received an English editing by professional English editors to overcome the limitations.

Reviewer #2:

**Scientific Quality:** Grade C (Good)

**Language Quality:** Grade B (Minor language polishing)

**Conclusion:** Minor revision

**Specific Comments to Authors:** The author reported a case of sigmoid colon duplication with ectopic immature renal tissue which is a very rare congenital malformation. The case presentation especially the clinical imaging of the patient were complete and convincing. It is helpful to improve the understanding of this rare disease.

Answer #2:
