

Dear Editors and Reviewers:

Thank you for your letter and for the reviewers' comments concerning our manuscript entitled "Erdheim-Chester disease with asymmetric talus involvement: A case report" (ID: 52843) . Those comments are all valuable and very helpful for revising and improving our paper. We have studied comments carefully and have made correction which we hope meet with approval. The main corrections in the paper and the responds to the reviewer's comments are as flowing:

Responds to the reviewer's comments:

Reviewer NO: 01202237:

Response to comment: Well written, informative case report of very rare disorder. Thank you!

Response: Thank you for your comments.

Reviewer NO: 02990500

Response to comment: The paper is a case report that aimed to describe an unusual case of ECD invading the asymmetric talus and tibia without involving other organs. It is well written, and I think it can published in the current form.

Response: Thank you for your comments.

Reviewer NO: 00722438

Response to comment: This study reports rare original findings in ECD along with treatment tailored to this specific case. The detailed report of the findings and characteristics of the data of histological work out confirm the ECD diagnosis in lack of symmetrical lesions. The limitations of this report are confined to the importance of a single case report.

Response: Thank you for your comments. This study shows that surgery treatment may also achieve good results for the ECD patients with only bone involvement.

We tried our best to improve the manuscript and made some changes in the manuscript. These changes will not influence the content and framework of the paper. We appreciate for Editors/Reviewers' warm work earnestly, and hope that the correction will meet with approval.
