Column: Observational study

Title: Cleansing efficacy and safety of bowel preparation protocol using sodium picosulfate / magnesium citrate considering subjective experiences: an observational study

Authors: Fang-Xun Liu¹ Li Wang² Wen-Jie Yan¹ Li-Chun Zou¹ Yue-An Cao¹ Xiang-Chun Lin²

Dear Editor/ reviewer,

On behalf of all the co-authors, I am very grateful to the detailed analysis and comments for our paper. We amended the relevant paragraph in our paper based on the comments, which were listed as the item-by-item reply below.

Response to comment 1: **A minor language editing is required. Some minor language polishing should be revised.**

Response 1: Further editing and language polish has been done thoroughly by native-English speaker from Zhejiang University Press to meet the publishing need.

Response to comment 2: **The data in tables are interesting, however, the tables are not presented. Please check and edit the tables carefully.**

Response 2: The tables have been presented and edited according to the guidance. Table 1.1 and Table 1.2 have been integrated into Table 1 according to the comments.

Response to comment 3: **References list should be updated according to the guideline.**

Response 3: The references list has been updated as the required reference style.

Response to comment 4: **Figures should be moved to the end of the text.**

Response 4: The figure has been moved to the end of the main manuscript.

We appreciated for Editor/ Reviewers' work earnestly and hope that the improved version will meet with approval.

Yours sincerely,

Fangxun Liu
