

Dear Editor,

Thank you for your letter and for the reviewers' comments concerning our manuscript (NO.: 65205, Case Report). Those comments are all valuable and very helpful for revising and improving our paper, as well as the important guiding significance to our researches. Revised portion have been done. The main corrections in the paper and the responds to the reviewer's comments are as flowing:

Manuscript No.: 65205, case report

1. Author information

Changes to authorship,

Wen-Jing Sun, Qiang Ma, Ren-Zheng Liang, Ya-Mei Ran, Li Zhang, Juan Xiao, Yong-Mei Peng, Bin Zhan

Wen-Jing Sun, Ren-Zheng Liang, Ya-Mei Ran, Li Zhang, Juan Xiao, Yong-Mei Peng, Bin Zhan, Department of Gastroenterology, Hepatology and Endocrinology, Thirteenth Peoples' s Hospital of Chongqing, Chongqing, 400053, China

Qiang Ma, Department of Pathology, Daping Hospital, Research Institute of Surgery, Army Medical University, Chongqing 400042, China

Corresponding author: Bin Zhan, Department of Gastroenterology, Hepatology and Endocrinology, Thirteenth Peoples' s Hospital of Chongqing, Chongqing, 400053, China. Email: 406302524@qq.com.

Reasons of Changes to authorship: Because Bin Zhan contributed to the revising the manuscript, reference list and original figure documents. She is also as the cooperation teacher in the managing the patient. We need to change the current manuscript's author order and addresses, as listed above.

Among the authors in the list, Sun W contributed to diagnosis, drafting the manuscript and reviewing the literature. Ma Q performed the pathological diagnosis; Liang R performed the endoscopy and management of the patient; Zhang L, Xiao J and Peng Y reviewed the literature. Zhan B is as the cooperation teacher in the managing the patient. Zhan B contributed to the revising the manuscript, reference list and original figure documents; and all authors issued final approval for the submitted version.

After consultations, all the authors agreed with the addition of authors in this paper, and all the authors agreed with the rearrangement of the names. In the final version of the article, Bin Zhan is tagged as corresponding authors.

2. Answer to the Company editor-in-chief: The title of the manuscript is too long and must be

shortened to meet the requirement of the journal (Title: The title should be no more than 18 words).

The title has been revised as follow: Validation of diagnostic strategies of autoimmune atrophic gastritis: A case report.

3. Original pictures.

The original pictures have been prepared into a single PowerPoint (65205-F Image File.ppt).

4. Revising the reference list

The reference list has been revised. PMID and DOI number has been added in the reference list.

5. Article Highlights

According to the "Format for manuscript submission: Case report" which was downloaded from the website of World Journal of Clinical Case, there is no "Article Highlights" section in the manuscript of case report.

6. The pictures in this manuscript are original.

7. Check and remove any references that not relevant to this study.

The references in this manuscript has been checked. The references that not relevant to this study has been removed.

8. Figure legend and table legend

The definitions of abbreviation have been added at the end of the figure legend and table legend.

9. Revision files

The revision files are uploaded via the F6Publishing system. These files included answering reviewers, Audio Core Tip, manuscript, Conflict-of-Interest Disclosure Form, Copyright License Agreement, Signed Informed Consent Form(s) or Document(s), Non-Native Speakers of English Editing Certificate, Image File, Table File and CARE Checklist-2016.

I greatly appreciate both your help and that of the referees concerning improvement to this paper. I am looking forward to hearing from you regarding our manuscript.

Best regards.

Bin Zhan
