Editor-in –Chief

World Journal of Meta-Analysis

Dear Sir,

Please find below the responses to the comments of reviewers...

Reviewer (00506397)

Thanks to the reviewer for his time and efforts.

1. The author does not give us any idea of the intended audience, her methodology of selecting drugs that might have interactions with dipeptidyl peptidase 4 (DPP4) inhibitors, methodology of review (which databases were used).

The intended audience for this review are the Prescribers and Pharmacists and it is mentioned in the “Results” section.

This is a narrative review and the databases such as Medline/PubMed/PMC, ScienceDirect, Google scholar, Cochrane Library and reference lists have been searched for relevant articles using the keywords such as Drug interactions, Sitagliptin, Saxagliptin, Linagliptin, Gemigliptin, Teneligliptin, Vildagliptin, Anagliptin, CYP3A4 and P-gp efflux pump. The “Methods” section has been added to the manuscript.

The text of the manuscript has been revised as per the comments of reviewers and please find the revised manuscript for your kind consideration.
