

To the Reviewer,

Thank you very much for your appropriate suggestions, which improve significantly the manuscript.

We have modified the manuscript according to your suggestions.

In particular:

1)we have reworded the title of the manuscript.

2)we have defined SARS-Cov2 first time we use it. Have corrected the date 2029 in 2020. Have removed about and corrected the wrong words physiopathology and pandemia. Furthermore, according your suggestion, have removed some repetition.

3)we have now specified in the text that the treatment for patients with beginning mild-moderate disease is based on the italian at home experience (not published data)
