The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

2 Revision has been made according to the suggestions of the reviewer

- (1) We have made minor changes recommended by reviewers
- (2) We have eliminated the Italian text also introduced erroneously,
- (3) We have divided the section "Results" in subsections and changed the discussion, considering two of the three articles reported by reviewers as appropriate with the subject matter and suitable to enrich and complete our article.

3 References and typesetting were corrected

Finally, with regard to the English language, we have to revise the text by a native English speaker (Dr. Raffaella Aragona) and by a resident for several years in the UK.

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.
Sincerely yours,

Riccardo Urgesi
