Name of Journal: *World Journal of Gastroenterology*

ESPS Manuscript NO: 331

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

2 Revision has been made according to the suggestions of the reviewer

(1) We have inserted the histopathology findings with a photograph attached.

(2) The follow up was made by clinical and endo-anal ultrasound examination. There was no incontinence reported pre or post-op. The proctoscopic examination showed a anal canal mass firm and mobile. This was a R0 resection, clear margins on frozen section.

(3)
