

## Format for ANSWERING REVIEWERS

December 4, 2013

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 6506-review.doc).

**Title: Pros & Cons of Liver Transplantation in HIV Infected Recipients**

**Author:** Umberto Baccarani, Elda Righi, Gian Luigi Adani, Dario Lorenzin, Alberto Pasqualucci, Matteo Bassetti, Andrea Risaliti

**Name of Journal:** *World Journal of Gastroenterology*

**ESPS Manuscript NO:** 6506

The manuscript has been improved according to the suggestions of reviewers:  
1 Format has been updated

2 Revision has been made according to the suggestions of the reviewer

Reviewer **00724474:**

synonyms within the text have been avoided.

In abstract line 5 "disease" has been added.

"the" in the last sentence of the abstract has been deleted.

English correction has been made.

Reviewer **00012156:**

table 3 has been simplified.

Table 4 has been deleted as suggested; now table 5 has become table 4.

The following sentence has been added in the text to clarify the use of living, extended criteria or high risk donors for liver transplantation in HIV infected patients: "Moreover, in an era of donor's organs shortage pursuing alternative sources of livers, such as living donation and extended criteria or high risk donors, might be encouraged in order to expand the possibility of liver transplantation in HIV infected patients without hampering non-HIV candidates".

We do agree with the reviewer that more references are present in the literature on this topic, however we do think that for the purpose of this paper 72 references already cited should be fully comprehensive.

3 References and typesetting were corrected

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,

Umberto Baccarani, MD, PhD, FEBS
