1 The Format has been updated according to the Administration queries as follows:

1. The manuscript is in a format .doc and not as a pdf file;
2. The title has been shortened to no more than 10-12 words, as requested;
3. Author contributions is provided according to the format suggested;
4. The Core tip of less than 100 words has been added;
5. The References section has been revised adding the PubMed citation numbers and DOI citation; for each reference, we added all authors' names. In addition, in doing this revision we noticed that at least two articles were cited twice; so we amended the citation order and the reference list accordingly.

2 The manuscript has been improved according to the suggestions of the Reviewers; specifically, we edited the entire manuscript for the English language and incorporated all the comments regarding abbreviations, misspellings and other errors. Because of these extensive corrections, the revised version does not contain the changes made in a highlighted form.

Looking forward to hearing from you

Sincerely Yours

Prof. Vittorio Colantuoni
