

February 14, 2014

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: NEURO IN IBD221013_4.doc).

Title: Neurological disorders and Inflammatory Bowel Diseases

Authors: Casella Giovanni, Tontini Gian Eugenio, Bassotti Gabrio, Pastorelli Luca, Villanacci Vincenzo, Spina Luisa, Baldini Vittorio, Vecchi Maurizio

Name of Journal: *World Journal of Gastroenterology*

ESPS Manuscript NO: 6752

The manuscript has been improved according to the suggestions of reviewers:

1 All mistakes in typewriting and spelling errors have been corrected

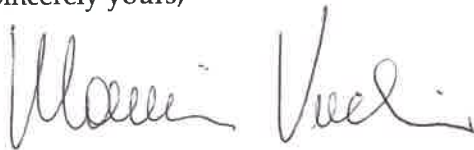

2 Revision has been made according to the suggestions of the reviewer

In particular, the English language has been thoroughly reviewed, as requested by all reviewers. Regarding reviewer 3, we believe that now the drug-induced and IBD-induced clinical pictures are better separated. We kept the beginning of the article with drug-induced complications, because we feel that this is the newer and more relevant part of the article.

3 References and typesetting were corrected

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,

A handwritten signature in dark ink, appearing to read 'Maurizio Vecchi', with a stylized, cursive script.

Maurizio Vecchi, M.D.
