

Dear Dr. Jin-Lei Wang,

Please find enclosed the revised version of the invited minireview entitled: “**De-escalating therapy in gastric aggressive lymphoma**” (World Journal of Gastroenterology; Manuscript N°: 7767). I am very grateful for the Reviewers' and Editor's comments, which allowed us to improve the quality of the manuscript. As requested, we have made the following changes (highlighted in the text):

Editor

- 1) “Authors contributions” have been reported in the title page.
- 2) “Core tip” has been written following key words.
- 3) PubMed citation numbers have been added to the reference list.

Reviewer #1

- 1) The role of *H. pylori* infection in the pathogenesis of PG-DLBCL and the rationale for *H. pylori* eradication in the treatment of PG-DLBCL have been reported in the first two paragraphs of the section entitled “*From chemo(immuno)therapy to Helicobacter pylori-eradicating antibiotic therapy*”. Related references have been added.
- 2) A section entitled “*Conclusions and future perspectives*” has been added.
- 3) Confusing sentences have been corrected.
- 4) English style and grammar have been reviewed.
- 5) Abbreviations have been defined.
- 6) The manuscript has been typed with double space and pages have been numbered.

Reviewer #2

- 1) The title has been modified as suggested.
- 2) References format has been corrected, and reference #19 (ref #23 in the revised version) has been changed.

I hope this revised version of the invited minireview is suitable for publication in The World Journal of Gastroenterology.

Thanking you for your kind attention, I remain

Respectfully yours
