Dear Editor:

Please find enclosed the edited manuscript in Microsoft Word format (file name: 9765-review.doc).

Title: Complete body-neck torsion of the gallbladder: A case report

Author: Ta-Wei Pu, Chun-Yu Fu, Huai-En Lu, Wei-Tung Cheng

Name of Journal: *World Journal of Gastroenterology*

ESPS Manuscript NO: 9765

The manuscript has been improved according to the suggestions of the reviewers:

1. The format has been updated.
2. Revisions have been made according to the suggestions of the reviewers.

Reviewed by 00057951

Comments: Very interesting case report.

Reviewed by 02447059

(1) Comment 1: Repetition of some sentences in the introduction and discussion.

Answer 1: We have removed the repetitive sentences from the Discussion section (Page 6, Discussion).

(2) Comment 2: Page 7, paragraph 1, last sentence "mortality rate of is ..." correct.

Answer 2: We have revised this sentence to: 'This high mortality rate was increased because of concomitant gangrene and perforation' (Page 6, Paragraph 1).

(3) Comment 3: Page 8, Ultrasonography is written abbreviated in paragraph 3 and in full in paragraph 4.

Answer 3: We have revised the sentence to: 'On ultrasonography, 3 features were suggestive of gallbladder torsion: a diffusely thickened and hypoechoic gallbladder wall that displays gangrene and/or inflammation' (Page 7, Paragraph 2).

(4) Comment 4: Some abbreviations are mentioned without full name, please revise.

Answer 4: We have revised the abbreviations throughout the manuscript.

Comments: This is a very interesting case report.

Reviewed by 02572357

(1) Comment 1: If possible, it would be interesting to add information about some former painful episode in the right upper quadrant.

Answer 1: We have added some information to the Case Report section (Page 4).

(2) Comment 2: For clarity, it is advisable to write extrahepatic bile duct instead of extrahepatic duct.

Answer 2: We have revised the phrase to 'extrahepatic bile duct' instead of extrahepatic duct'.

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,

Chun-Yu Fu, MD
