Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: Manuscript 3819-edited).

Title: Endoscopic papillectomy: indications, techniques, and results

Author: Giovanni D De Palma

Name of Journal: *World Journal of Gastroenterology*

ESPS Manuscript NO: 3748

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

2 Revision has been made according to the suggestions of the reviewer

(1) As evidenced by a recent randomized trial, prophylactic rectal indomethacin significantly reduces the incidence and severity of post-ERCP pancreatitis providing an incremental benefit over temporary pancreatic stents ^[62].

3 References and typesetting were corrected

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,
Giovanni D. De Palma MD
