

ANSWERING REVIEWERS

February 15, 2015

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 16296-Edited.docx).

Title: Role of vitamins in gastrointestinal diseases

Author: Omar A. Masri, Jean M. Chalhoub, Ala I. Sharara

Name of Journal: *World Journal of Gastroenterology*

ESPS Manuscript NO: 16296

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

2 Revision has been made according to the suggestions of the reviewer

- Reviewer 00037028: We understand the comments regarding Vitamin B12 and D uses in HCV therapy, and despite IFN based regimens not being first line therapies, we thought that it is worthwhile mentioning the uses of these vitamins in the literature.

- Reviewer 00035884: Linguistic modifications have been done according to reviewer comments.

We thought there was no need to switch our stratification from per vitamin to per disease as we already have divided each vitamin into subtitles, each discussing a certain disease. In addition, table 2 presents vitamin uses per disease.

- Reviewer 00033061: Minor linguistic revisions were done.

- Reviewer 00033739: All suggested modifications were done and corrections are highlighted in the body of the manuscript.

3 References and typesetting were corrected. Some references did not have a PMID or DOI.

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,

Ala I. Sharara, M.D., FACG, AGAF,
Professor and Head, Division of Gastroenterology,
