

## ANSWERING REVIEWERS

August 25, 2012

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 11755-review.doc).

**Title: Ulcerative Colitis with Inflammatory polyposis in a Teenage Boy: A case report**

**Author:** Jin-Shan Feng , Ying Ye , Bo-Tao Luo , Xue-Bao Zheng

**Name of Journal:** *World Journal of Gastroenterology*

**ESPS Manuscript NO:** 11755

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

2 Revision has been made according to the suggestions of the reviewer

(1) Discussion of potential relationship of FAP and UC needs further expansion. *(Reviewed by 02908920)*

Discussion of potential relationship of FAP and UC were added to the article.

(2) The time points of the treatment were not clearly stated. For example, in the context, "A second colonoscopy was performed 6 months later.....". Also, the authors did not mention the time point of colectomy and ileal pouch anal anastomosis (IPAA) surgery. *(Reviewed by 02903599)*

The time points of the treatment were added to the article.

(3) Some statements are ambiguous. For example, in the context, "The quality of life of the boy were normal." *(Reviewed by 02903599)*

Some ambiguous statements were treated.

(4) The combination of different drugs is widely used in the medical therapy of UC, which is not discussed in the manuscript. *(Reviewed by 02903599)*

The combination of different drugs used in the medical therapy of UC is a bit subject, which I have planed to discuss in next special article.

(5) There is no discussion in regard of the comparison of the use of drugs and TCM in China. *(Reviewed by 02903599)*

In this case, surgery is the main treatment strategy, so the comparison of drugs and TCM are simplified.

3 References and typesetting were corrected

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,
