

## ANSWERING REVIEWERS

July 07, 2014

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 11248-edited).

**Title:** Adenocarcinoma of third and fourth portions of duodenum: the capsule endoscopy value.

**Authors:** Feliciano Chanana Paquissi, Ana Henriqueta Filipe Bunga Pimentel Lima, Maria de Fátima do Nascimento Vieira Lopes, Francisco Viamontez Diaz.

**Name of Journal:** World Journal of Gastroenterology

**ESPS Manuscript NO:** 11248

The authors number has been updated. Manuel Venancio Toboso Alcantara and Juan Francisco Puertas Álvarez were excluded; because they do not meet conditions 2 and 3 of authorship credit according to standard proposed by the International Committee of Medical Journal Editors.

The manuscript has been improved according to the suggestions of reviewer: 506304

1 Format has been updated

2 Revision has been made according to the suggestions of the reviewer

- a. We showed the data (RBC, MCV, MCH, MCHC, RDW and ferritin) that support microcytic, hypochromic iron deficiency anemia, due to GI blood loss in a patient with abdominal discomfort and one sentinel episode of melena; according to reviewer comment.
- b. We have clearly labeled structures in Figs. 1 and 3; we have described the histological technique we used, and add scale bars in Fig. 3; according to reviewer comment.

3 References and typesetting were corrected

Thank you again for publishing our manuscript in the World Journal of Gastroenterology.

Sincerely yours,

A handwritten signature in black ink that reads 'Feliciano Paquissi'.
