To the editor of World Journal of Gastroenterology,

With this letter we want to resubmit our invited review manuscript (Number ID: 00054529; manuscript number 18594) entitled 'Posttransplant lymphoproliferative disorders following liver transplantation: where are we now?' to Your journal.

We read with interest the comments of reviewer 03309557 and would like to thank this reviewer for the useful points she/he addressed to improve the manuscript.

- (1) We added possible explanations why EBV mismatch is a major risk factor for development of PTLD.
- (2) 2-letter spaces were corrected.
- (3) Abbreviations (RIS, CR, SOT) were explained.
- (4) Typo at the end ('the' instead of 'de') was corrected.
- (5) Ref 60 was rewritten.

We would like to thank you for this kind invitation and for the opportunity to present our work in your journal.

Sincerely,

Daan Dierickx, MD, PhD
