

Dear reviewers,

On behalf of my co-authors, we thank you very much for giving us an opportunity to revise our manuscript. We really appreciate your positive and constructive comments and suggestions on our manuscript. We have tried our best to revise the manuscript as suggested. The followings are our replies for your criticism.

1. We have added the informatin according to the request. Supplementary materials are listed as follows: language certificate, running title, institutional review board statement, Conflict-of-interest statement, data sharing statement, Core tip and audio core tip, Comments and the search image of Google Scholar.
2. Institutional animal care and use committee statement, Animal care and use statement

Because our experimental research studied NIT-1 islet cells and was not involved in animals, the above two statements were not provided.

3. Crosscheck detection

We couldn't log in to the crosscheck detection site because of the slow network.

We substitute Turnitin for Crosscheck.

A revised version will be attached and we would like to re-submit it for your kind consideration. We would like to express our appreciation to you for suggesting how to improve our paper. We hope that the revised manuscript is now suitable for publication.

Looking forward to hearing from you.

Best regards.

Yours sincerely,

Fuer Lu
