

December 17, 2015

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 22853-Revised manuscript).

Title: PPAR receptors at the crossroad of obesity, diabetes, and pancreatic cancer

Author: Simone Polvani, Mirko Tarocchi, Sara Tempesti, Lapo Bencini, Andrea Galli

Name of Journal: *World Journal of Gastroenterology*

ESPS manuscript NO: 22853

The manuscript has been improved according to the suggestion and helpful comments of the reviewer.

According to your suggestions, we have moved at the very beginning of the review the paragraphs on Nuclear Receptors and PPAR γ , and we removed some of the details on the general physiology of pancreatic cancer. The references suggested have been inserted where appropriate. For better identification all the modifications have been highlighted in red.

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,

Prof. A. Galli,

Dept. of Experimental and Clinical Biomedical Sciences "Mario Serio"

University of Florence,

viale Pieraccini 6, 50139 Florence

Italy
