

Manuscript ID: 38899
Manuscript Title: Irritable bowel syndrome in children: current knowledge, challenges and opportunities
Name of Journal: World Journal of Gastroenterology

Answer to reviewer comments:

Reviewer 1:

Comment:

This review presents adequate bibliographical references and contributes with biopsychosocial data related to functional gastrointestinal disease in the pediatric population, highlighting irritable bowel syndrome

Answer: We thank the reviewer for his positive comment.

Reviewer 2:

Drs. Devanarayana and Rajindrajith reviewed 'Irritable bowel syndrome in children: Current knowledge, challenges and opportunities'. The review is well-presented. The reviewer has a minor comment. Comment 1. In page 27, line 16, please correct Crohns disease to Crohn's disease.

Answer: We thank the reviewer for his positive comment. The spelling mistake is corrected as suggested by the reviewer.
