Reviewer#1:

Scientific Quality: Grade B (Very good)

Language Quality: Grade A (Priority publishing)

Conclusion: Accept (High priority)

Specific Comments to Authors: The letter to editor highlighted the two potential links: cardiometabolic risk and genetic association, between NAFLD and CKD onset in childhood. It is a high quality letter, with great interesting for readers.

Answer: thank you for your consideration.

Reviewer #2:

Scientific Quality: Grade B (Very good)

Language Quality: Grade C (A great deal of language polishing)

Conclusion: Accept (General priority)

Specific Comments to Authors: The authors make a fine assessment of renal involvement in children with obesity and NAFLD. Pacifico L et al., 2016 wrote an interesting study regarding this. More comparative data is indeed required.

Answer: Thank you for your valuable comment. We added more comparative data (including Pacifico et al.), as suggested. Please see lines 101-104 of the revised manuscript.

4 LANGUAGE QUALITY

Please resolve all language issues in the manuscript based on the peer review report. Please be sure to have a native-English speaker edit the manuscript for grammar, sentence structure, word usage, spelling, capitalization, punctuation, format, and general readability, so that the manuscript's language will meet our direct publishing needs.

Answer: English language has been further polished in the revised version of the manuscript. We also provided the related certificate.
