

Response to Reviewers

Sir/Madam,

We thank the reviewers for giving their valuable comments. We have modified the article as per the requirements of the reviewers. We hope it finds favour with the reviewers.

Comment 1: Introduction, first paragraph, last sentence: ``second cause" -> ``second" (redundant); ``US" -> ``in US". Pancreatic ductal adenocarcinoma is usually abbreviated as PDAC, not PAC.

Reply: Thank you for keen observation. The same has been done in the revised manuscript (Highlighted in red)

Comment 2: Page 2: ``The results of the phase II..." check grammar. Adjuvant chemotherapy, first paragraph: remove ``vs. 10.4%" (repeated).

Reply: Thank you. We have done the recommended correction (Highlighted in red)

Comment 3: Page 5, second line: ``trial: highlighted" remove colon.

Reply: Removed (Highlighted in red)

Comment 4: Page 6, Line 7: ``had survival benefit" -> ``showed survival benefit".

Reply: The recommended change has been incorporated in the revised manuscript (Highlighted in red)

Comment 5: End of Page 8: ``group"->``groups".

Reply: The change has been done (Highlighted in red)

Comment 6: Page 9, Line 3: ``median overall" missing ``survival"?

Reply: It has been rectified in revised manuscript

Comment 7: It Advanced metastatic pancreatic carcinoma, Line 3: ``brough" missing ``t"?

Reply: Thank you for your observation. The recommended rectification has been done (Highlighted in red)

Comment 8: Page 11: ``FOLFIRINOX regimen in now..." should be ``is now..."? ``elderly or profile patients" should be ``elderly or low-profile patients"?

Reply: We totally agree: The recommended has been catered to in the revised manuscript (Highlighted in red)

Comment 9: Top line of Page 12: ``tries"->``tried"?

Reply: The same has been done

Comment 10: Page 13, Line 5: ``pain abdomen" -> ``abdominal pain"? ``bed rock" -> ``bedrock".

Reply: Thank you. It has been corrected (Highlighted in red)

Bottom of Page 14: ``three other..." -> ``in three other..."

Comment 11: Page 15: Define ``mPFS"

Reply: Thank you for keen observation. We have defined the same in the revised manuscript (Highlighted in red)

Comment 12: There are some numbers appearing to be typos ``11 As a result" and ``16 In a phase II study"; ``Algenpanteucel-L"-``Algenpantucel-L"; `` (IMPRESS Trial)" remove parentheses

Reply: Thank you. The same has been done (Highlighted in red)
