

Dear Editor,

Thank you for taking the time to allow us to revise this work. Enclosed is our detailed response to the reviewers' comments on the manuscript titled: "Adherence to the CDC Advisory Committee on Immunization Practices (ACIP) Vaccine Recommendations Among Patients with Diabetes Mellitus in Saudi Arabia: A Multicenter Retrospective Study".

Additionally, the manuscript also went through professional language editing. Please let us know if we could be of any further assistance.

Sincerely,

Saleh F. Alqifari, PharmD

Assistant Professor of Pharmacy Practice

Consultant-Ambulatory Care Pharmacy

Department of Pharmacy Practice, Faculty of Pharmacy, University of Tabuk

Tabuk, Kingdom of Saudi Arabia

Comment	Response
- For the keywords: retrospective study must be included in the keywords.	Keyword added.
In the abstract: some abbreviations like HPV and Tdap must be elaborated, authors are advised to state what each abbreviation stands for.	Abbreviations are spelled out accordingly.
In the methodology, for statistical analysis, authors must replace the word "numbers" with "frequency" for categorical data expression. Also, the software GraphPad prism name should be written correctly.	The methods section has been edited accordingly. Software name edited.
In future, authors are advised to consider the influence of categorical factors on vaccination adherence by using chi-square test.	Noted, thank you for the recommendation.
Authors are advised to correct few mistakes in punctuations like some extra spaces.	The manuscript has been sent for professional language service editing.
