

## ANSWERING REVIEWERS

December 30, 2013

Dear Editor,

Please find enclosed the edited manuscript in Word format (File name: ESPS-7503).

**Title:** Exploration of natural enzyme inhibitors with hypoglycemic potentials amongst *Eucalyptus Spp.* by *in vitro* assays

**Author:** Baishakhi Dey, Analava Mitra, Prakash Katakam, Rajeev K Singla

**Name of Journal:** *World Journal of Diabetes*

**ESPS Manuscript NO:** 7503

The manuscript has been improved according to the suggestions of reviewers:

### Replies to comments of reviewer 1:

- \*A new table has been incorporated (Table 1). Hence other tables have been re-numbered.
- \*Incorporation of figure legends as suggested by reviewer.
- \*All abbreviations have been expanded.
- \*All attempts have been made to improve the language level of the manuscript.
- \*Overall the manuscript has been formatted as per journal norms.
- \*All changes suggested in track change mode have been accepted.

### Basing on the comments of the honored reviewer 2/00225280:

- \*New word/modifications made have been marked in red in the abstract portion.
- \*Change made in **Core tip** has been marked in red.
- \*Introductory part have been shortened as per the reviewer's suggestions.
- \*Methodology have been shortened as per the reviewer's suggestions.[The portions of phytochemical investigations of ELE]
- \***Table 2** and **Table 6** have been deleted as per the reviewer's suggestions and hence changes made in table numbers which are also reflected in the result sections.
- \*Correlation and p-values have been presented in the results section and properly interpreted.
- \*New points added have been marked in red.
- \*As suggested by honored reviewer role of green tea as well as mechanistic role of polyphenols has been discussed in the discussion part of the manuscript (marked in red).
- \*More references have been added in the reference section (marked in red) and properly cited in the text.

### Basing on the comments of the honored reviewer 3/00506304:

- \*The introduction part has been shortened.
- \*As per our research data, the SD values are very less, hence the same reflected in tables and figures.
- \*Facts relating to capitalization of generic terms etc have been taken care off.

Thank you again for publishing our manuscript in the *World Journal of Diabetes*.

Sincerely yours,

1. Ms Baishakhi Dey

2. Analava Mitra

3. Prakash Katakam

4. Rajeev K Singla
