Title: "Current knowledge on diabetic retinopathy from human donor tissues"

Authors: Jessica H. Eisma, Jennifer E. Dulle and Patrice E. Fort.

Name of Journal: *World Journal of Gastroenterology*

ESPS Manuscript NO: 14077

This invited review (original ID 02863834; file name 14077-revised) summarizes the current state of knowledge of the pathophysiology of diabetic retinopathy, from the standpoint of the information collected from human donor tissues rather than animal models routinely used for diabetic research.

The manuscript has been improved according to the suggestions of reviewers (changes are highlighted):

1 Abstract has been slightly modified to even more focus on diabetic retinopathy

2 Revision has been made according to the suggestions of the reviewer

(1) Abstract has been slightly modified

(2) references have been checked and reformatted

3 References and typesetting were corrected as requested by the editor. Authors' contributions, key words (from index medicus) and the "core tip" have also been added as requested.

Thank you again for publishing our manuscript in the *World Journal of Diabetes*

Sincerely,
