The Editor-in-Chief
World Journal of Diabetes

Dear Sir,

I would like to thank you for assessing and reviewing our study. Please find enclosed our revised manuscript, entitled **“Barriers that practitioners face when initiating insulin therapy in general practice settings and how they can be overcome.”** by **“Abdulaziz Bin Rsheed and Ian Chenoweth”**, which we would like to submit for publication as a **“systematic review”** in your esteemed journal **“World Journal of Diabetes”**.

You might notice the following changes in the revised manuscript:

- Core tip and audio core tip were added.
- PDF file for conflict of interest statement were added.
- Revision and minor polishing for the abstract and the main text (according to the fixed journal format) was done.
- Comments part were added to the manuscript.
- Figure 1 and 2 (describing the search strategy in pubmed and ovid) were deleted based on reviewer (00506380) suggestion.
- Figure 4 (barriers reported by primary care physicians to insulin initiation) was converted to table No 2.
- Table 3 (possible solutions for insulin initiation delay proposed in literature) were added according to reviewer (00506380) suggestion.

Yours sincerely,
