

ANSWERING REVIEWERS

May 2, 2015

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 17270-review.doc).

Title: Delayed Esophageal Perforation Occurring with Endoscopic Submucosal Dissection: A Report of Two Cases

Author: Yasuhiro Matsuda, M.D., Naoki Kataoka, M.D., Tomoyuki Yamaguchi, M.D., Masafumi Tomita, M.D., Kazuki Sakamoto, M.D., Shinichiro Makimoto, M.D.

Name of Journal: *World Journal of Gastrointestinal Surgery*

ESPS Manuscript NO: 17270

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

2 Revision has been made according to the suggestions of the reviewer

(1) What the authors mean with "sub dermal reconstruction"?-in both cases they state this.

"sub dermal reconstruction" → "reconstruction of the esophagus via the subcutaneous route anterior to the thoracic wall"

(2) In the first case the author state that patient had "suture failure" what do they mean? "leakage"? they said that patient do not had mediastinal infection so they need to clarify

"suture failure" → "wound infection"

3 References and typesetting were corrected

Thank you again for publishing our manuscript in the *World Journal of Gastrointestinal Surgery*

Sincerely yours,

Yasuhiro Matsuda
