Reviewer's comment

I reviewed your article "An endoscopic approach to the diagnosis of pancreatic cystic tumor". Bottom line it is a well written article and included all the available studies/data related to its subject.

Reply to Reviewer

Thank you for your review. I checked my paper again. My article was not updated in contents of text, because there were no points to be corrected in a reviewer's comment.

And I changed my manuscript according to the editor's suggestions like below..

1. I added running title and Conflict-of-interest statement in title page.
2. I added key words.
3. I added CORE TIP.
4. I added Audio Core Tip.
5. I added square bracket into reference number.
6. I added PubMed citation numbers and DOI citation to the reference list and listed all authors.
