

Format for ANSWERING REVIEWERS

September 1, 2014

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 12880-review.doc).

Title: Adult human neural stem cell therapeutics: current developmental status and prospect

Author: Hyun Nam, Kee-Hang Lee, Kyeong Min Joo, Do-Hyun Nam

Name of Journal: *World Journal of Stem Cells*

ESPS Manuscript NO: 12880

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

2 Revision has been made according to the suggestions of the reviewer

1) Reviewer #203307

- According to the suggesting of Reviewer #203307, we added discussion about the current clinical trial status of aNSCs compared to other stem cell types in the ischemic stroke and Alzheimers' disease section.
- We added a diagrammatic summary of the approaches/strategies of aNSCs and their pros/cons in the manuscript.
- We appreciate the kind suggestion of Reviewer #203307. Typing errors were fixed in the manuscript.

2) Reviewer #2446253

- According to the reviewer #2446253's opinion, redundant description of the various types of stem cells was shortened in the manuscript (2 pages → 1 page length).
- English of this review was edited professionally and we attached the certificate.

3) Reviewer #2398407

- According to the reviewer #2398407's opinion, redundant description of the various types of stem cells was shortened in the manuscript (2 pages → 1 page length).
- According to the reviewer #2398407's suggestion, "Neurodegenerative diseases" was substituted by "neurological diseases" according to the context.
- According to the reviewer #2398407's suggestion, "Alzheimer's and Huntington's disease" on page 4 was substituted by "Alzheimer's and Huntington's diseases".
- According to the reviewer #2398407's suggestion, "another culture methods" at lines 24, page 6 was substituted by "another culture method".

3 References and typesetting were corrected

Thank you again for publishing our manuscript in the *World Journal of Stem Cells*.

Sincerely yours,

Do-Hyun Nam, M.D., Ph.D.
