Re: Manuscript for Review Article 91528
Human – AI Interaction in Gastrointestinal Endoscopy

Dear Editor

Thank you for your peer review and editorial feedback on our manuscript. We have made grammatical and syntactic changes and have added a figure as suggested.

Please note, my post-nominal qualifications need to be corrected on the final online version of the article, as some options were not available as tick-boxes on the relevant page during manuscript submission. The correct postnominal qualifications are listed after my name below.

Faithfully
