

February 06, 2015

Dear Editor,

Please find enclosed the edited manuscript in Word format.

Title: Endoscopic mucosal resection and endoscopic submucosal dissection in the treatment of sporadic nonampullary duodenal adenomatous polyps

Authors: Joana Marques\*, Francisco Baldaque-Silva\*, Pedro Pereira, Urban Arnelo Naohisa Yahagi, Guilherme Macedo

Submitted to World Journal of Gastrointestinal Endoscopy

ESPS Manuscript NO: 14891

We would like to thank the reviewers for their extensive work that lead to improvement of this manuscript. Authors would like to thank the editor for the laborious and detailed work done that lead to improved of the manuscript. All the comments made were addressed and the correspond changes performed in the manuscript.

- (1) We added a short summary has asked.
- (2) According to comment from reviewer 01047280 we add a methodology paragraph explaining the selection of papers for this review (please see introduction).
- (3) We changed the legends according to what was asked (please see legends).
- (4) References and typesetting were corrected as asked (please see the References)

The paper was written after invitation (ID 02462502). We performed an extensive and detailed search of the published literature and tried to make a comprehensive and systematic review. This is a field of increased relevance in the endoscopic community and should of great interest to your readers. That is the reason why we are confident that this article deserves publication in World Journal of Gastrointestinal Endoscopy, it should be consistently quoted in each further study in this field and it should have great scientific and clinical impact. Authors certify having no conflict of interest in relation to the submitted manuscript. It is hereby stated that this manuscript has not been published elsewhere, nor submitted simultaneously for another publication.

Sincerely yours,

Francisco Baldaque-Silva
