

## Reviewer Feedback

Reviewer #1:

**Scientific Quality:** Grade C (Good)

**Language Quality:** Grade B (Minor language polishing)

**Conclusion:** Accept (General priority)

**Specific Comments to Authors:** This letter to editor is related to the use of Glecaprevir/pibrentasvir + sofosbuvir for post-liver transplant recurrent hepatitis C virus treatment. The content is well described for the treatment of CHC in difficulty, especially post-liver transplant. I have no comments.

**Response:** Revised language and grammar. We are happy to make further revisions if requested.

Reviewer #2:

**Scientific Quality:** Grade B (Very good)

**Language Quality:** Grade A (Priority publishing)

**Conclusion:** Accept (High priority)

**Specific Comments to Authors:** No comments, a nice case presentations in post-LT HCV recurrence issue.

**Response:** Revised language and grammar. We are happy to make further revisions if requested.

Reviewer #3:

**Scientific Quality:** Grade B (Very good)

**Language Quality:** Grade B (Minor language polishing)

**Conclusion:** Accept (General priority)

**Specific Comments to Authors:** Well written letter highlighting role of

Glecaprevir/pibrentsavir in combination with sofosbuvir as a safe and effective option for treatment of recurrent hepatitis C post liver transplantation

**Response:** Revised language and grammar. We are happy to make further revisions if requested.
