World Journal of Hepatology
Editorial Board

Dear editor,

Thank you for your letter. Enclosed is the revised manuscript "Yinhuang granule alleviates carbon tetrachloride-induced liver fibrosis in mice and its mechanism". The manuscript ID is 88427. Please find the original manuscript online. Following is our points to points reply to the reviewer.

The revisions are all marked highlighted in this revised manuscript.

To Reviewer:

Question 1: It is advised to check all manuscript body (especially references section) as shape carefully and correct it kindly.

Answer: We have made revisions about manuscript body in this revised manuscript, and check carefully.

Question 2: -Please give a little information about "liver and its treatment with natural agents" in the introduction section with to cite of some papers below: 1. Selamoglu Zeliha, Nihayet Bayraktar, Özdemir İlknur, Gök Yetkin, Yılmaz İsmet. The Effects of Synthetic Organoselenium Compounds on Nitric Oxide Levels in DMBA Induced Rat Liver. J. Environ. Biol. 30(4): 591-593, 2009. 2. Badr Gamal, Sayad Eman Abdo, Waly Hanan, Mahmoud Mohamed H, Selamoglu Zeliha. The Therapeutic Mechanisms of Propolis Against CCl₄-Mediated Liver Injury by Mediating Apoptosis of Activated Hepatic Stellate Cells and Improving the Hepatic Architecture through PI3K/AKT/mTOR, TGF- β /Smad2, Bcl2/BAX/P53 and iNOS Signaling Pathways. Cellular Physiology and Biochemistry. 53(2): 301-322, 2019. 3. Erdemli Mehmet Erman, Salmas Ramin Ekhteiari, Durdağı Serdar, Akgül Hasan, Demirkol Mehmet, Aksungur Zeynep, Selamoglu Zeliha. Biochemical changes induced by grape seed extract and low level laser therapy administration during intraoral wound healing in rat liver: an experimental and in silico study. Journal of

Shanghai University of Traditional Chinese Medicine

Biomolecular Structure and Dynamics. 36(4):993-1008, 2017. 4. Erdemli Mehmet Erman, Akgül Hasan, Ege Bilal, Aksungur Zeynep, Gözükkara Bağ Harika Gözde, Selamoglu Zeliha. The effects of grapeseed extract and low level laser therapy administration on the liver in experimentally fractured mandible. J Turgut Ozal Med Cent. 24(2): 127-133, 2017. 5. Selamoglu Zeliha, Özdemir İlknur, Çiftçi Osman, Gülhan Mehmet Fuat, Savcı Ahmet. Antioxidant Effect of Ethanolic Extract of Propolis in Liver of L NAME Treated Rats. Advances in Clinical and Experimental Medicine. 2(24): 227-232, 2015. 6. Selamoglu Zeliha, Yılmaz İsmet. The investigation of the antioxidative properties of the synthetic organoselenium compounds in liver tissue of rat with histological and biochemical analyses. Journal of Pharmaceutical Care. 4(2): 162-169, 2014. Therefore, the introduction and discussion sections of these articles will be improved well with my suggestion. Finally, It is very well-marked that this paper is acceptable with minor revision depend on my suggestions and useful for publish in this very great journal.

Answer: We fully agreed to the suggestion of Reviewer and we have made revisions in the Introduction in this revised manuscript.

To Editor:

We greatly appreciate the valuable suggestions provided by the editors for our manuscript. In accordance with these suggestions and the author guidelines, we have systematically addressed each comment in the revised manuscript.

Others:

Although Hao Ouyang (email: oyhao94@shutcm.edu.cn) and Wei-Ye Hu (email: wy.1997@live.com) thoroughly checked their spam folders, they were unable to locate the email containing the Copyright License Agreement (CLA). Additionally, they have been unable to establish contact with submission@wjgnet.com. Therefore, both of them have confirmed and signed the paper copy of the CLA.

We thank the Editors and Reviewer for their careful analysis and constructive suggestions, and we hope the revised manuscript is in good shape and satisfactory.
