The manuscript has been improved according to the suggestions of reviewers:

1. The description “ $\mu\text{g/mL/min}$ ” was corrected to “ $\mu\text{g/kg/min}$ ”. (page 8, line 9)
2. The figure legends of Figure 2 and 4 have been revised to explain the figures more concisely. (page 19, line 12-14; page 20, line 10-13).

Also, one of the authors, Megumi Morimoto, has been removed from the authors’ list in the revised paper because her contribution to this work was deemed insufficient based on the BPG’s Revision Policies for Case Report.
