RE: (ID 00505588) Intrahepatic pancreatic pseudocyst: A Review of the World Literature

Dear Lian-Sheng Ma, Jin-Lei Wang, and Editorial Board,

Thank you for your kind invitation to contribute an article to *World Journal of Gastroenterology*. As you know, we submitted our manuscript, "Intrahepatic pancreatic pseudocyst: A review of the World Literature." to *World Journal of Gastroenterology*.

However, per your e-mail of August 30, 2016, this was not accepted to *World Journal of Gastroenterology* but rather was recommended for publication in *World Journal of Hepatology*. Therefore, we now submit it to *World Journal of Hepatology*, after incorporating the reviewer comments, as delineated below. We have replied to each and every point below, our **responses in bold, italic face, and underlined**, following the verbatim reviewer comments in quotation marks:

## **REVIEWER COMMENTS**

### **Reviewer 03548801**

"I think the report is interesting for readers of WJGE. I think the manuscript should be published after minor language polishing."

**RESPONSE: We thank this reviewer for the kind comments, and have polished the language.**

### **Reviewer 03646552**

"Interesting paper on intrahepatic pseudocyst. Conclusions are interesting. Please elaborate if possible more on the role of endoscopic treatment in such cases."

**RESPONSE: We thank this reviewer for the kind comments, and have elaborated on the endoscopic treatment in such cases.**

This manuscript has not been submitted elsewhere, and has been reviewed and approved by all authors.

Please contact me anytime for anything at my cell or e-mail. Thank you for your attention to our work.

Sincerely yours,

A handwritten signature in black ink, appearing to be 'SCC', written in a cursive style.
