

March 18, 2014

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 9270-review.doc).

Title: Genetic update on inflammatory factors in ulcerative colitis: review of the current literature

Authors: Patricia Sarlos, Erzsebet Kovesdi, Lili Magyari, Zsolt Banfai, Andras Szabo, Andras Javorhazy, Bela Melegh

Name of Journal: *World Journal of Gastrointestinal Pathophysiology*

ESPS Manuscript NO: 9270

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated.

2 Revision has been made according to the suggestions of the reviewer

(1) Answers to the Reviewer 4011:

The authors should use only one name and it is preferably to use Ulcerative colitis and no colitis ulcerosa.

Corrected in the manuscript.

Instead of discussion should write a conclusion and to notice in a more particular way the future use of these biomarkers on diagnosis and response to therapy.

“Discussion” is replaced by “Conclusion” and completed with the requested content.

(2) Answers to the Reviewer 503539:

Figure 1 is black box. Figure 1 does not appeared in this file.

Figure 1 is attached in a separate file.

It is rather better if the authors briefly discuss the superiority/significance of individual genetic factors.

The “Conclusion” is extended with the requested content.

(3) Answers to the Reviewer 1798570:

The authors should use only one name (Ulcerative colitis).

Corrected in the manuscript.

Figure 1 does not seen in this file.

Figure 1 is attached in a separate file.

In discussion section, Conclusion is more suitable instead of discussion.

“Discussion” is replaced by “Conclusion” in the manuscript.

Thank you again for publishing our manuscript in the *World Journal of Gastrointestinal Pathophysiology*

Sincerely yours,
Bela Melegh, M.D., Ph.D., D.Sc.
