**Author: Govind K Makharia**

**Name of Journal: World Journal of Gastrointestinal Pathophysiology**

**ESPS Manuscript NO: 9148**

The manuscript has been improved according to the suggestions of reviewers:

1. Format has been updated
2. Revision has been made according to the suggestions of the reviewer

**i. Reviewer's Comments**

The manuscript addresses a very important topic in Crohn's disease, however the authors did not show it clear what strategies can be proposed to improve the health care of patients with CD. -The objective needs to be more specific. - It will be more understandable if the data presented in table or fig. -The conclusion did not address the potential interest of the topic.

**Our response:** We sincerely appreciate the reviewers comments and suggestions. Assurance of quality of care is a rather new concept and there is increasing interest on this topic amongst IBD specialist. As per suggestions of the reviewer, we have added a table highlighting key points in the delivery of quality of care for aptients with CD. objectives of quality of care. Furthermore we also have modified the conclusions.

3. References and typesetting were corrected

Thank you again for publishing our manuscript in the **World Journal of Gastrointestinal Pathophysiology**
