

March 22, 2014

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 9273-edited.doc).

Title: Evaluation and Outcomes of Patients with Obscure Gastrointestinal Bleeding

Author: Cositha Santhakumar, Ken Liu

Name of Journal: World Journal of Gastrointestinal Pathophysiology

ESPS Manuscript NO: 9273

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated.

2 Revision has been made according to the suggestions of the reviewer:

- (1) Running title has been included
- (2) Authors full names now included
- (3) Authors contributions now included
- (4) Correspondence now included
- (5) Phone numbers included
- (6) Table legend included for Table 1
- (7) PMID and DOI included for references

3 Following revisions were not made according the suggestions from the following reviewers:

- (1) Reviewer 02547273: recommended discussing Repeat Upper and Lower Endoscopy and CT Enterography earlier in the manuscript. Given capsule endoscopy and enteroscopy are the most common modalities with the highest yield for the investigation of OGIB, we felt it was more important to discuss them first.

4 References and typesetting were corrected.

Thank you again for publishing our manuscript in the World Journal of Gastrointestinal Pathophysiology.

Yours Sincerely,

Cositha Santhakumar
