Dear Editor,

Please find enclosed the edited manuscript in Word format

ID: 00029291

Running title: ipilimumab induced ileocolitis

Title: Diarrhoea in a patient with metastatic melanoma: ipilimumab ileocolitis treated with infliximab

Author: Rob M.E. Slangen, Alfonsus J.M. van den Eertwegh, Adriaan A. van Bodegraven and Nanne K.H. de Boer

Name of Journal: *World Journal of Gastrointestinal Pharmacology and Therapeutics*

Comments en questions by the reviewers

REVIEWER 1/2

Were there no other medications during that period?

ANSWER

All drugs used are given in the description of the case, no other drugs were used

REVIEWER 3

It is a rare but of big significance case report. As the administration of drug ipilimumab is more and more common, its side effects, especially on GI tract inflammation will bring more concern. the authors reported this case on this purpose. it is worth of publishing in WJG journals.

ANSWER

We thank the reviewer for his comments.

Thank you again for publishing our manuscript in the *World Journal of Gastrointestinal Pharmacology and Therapeutics*

Sincerely yours,

Rob M.E. Slangen , MD
