

August 7, 2015

To whom it may concern:

Please find the revised manuscript entitled "The present state and future challenges in pediatric abdominal pain therapeutics research: Looking beyond the forest" (ESPS Manuscript NO: 19328).

All of the recommended changes were adding the Abstract (now on pages 2-3), the Core Tip (page 4) and the Audio core tip (page 4 and attached), as well as formatting changes which have all been completed.

Thanks you for your consideration of this manuscript.

Sincerely,

Craig A. Friesen, M.D.
