

Dear Editor,

With thanks to all reviewers who provide us their constructive comments, we would like to add all responses here one by one,

Once again thank for kind response to our minireview,

Responses to reviewers:

**To Reviewer # 158526:**

- 1- Table 1;
- 2- Indeed, in our article, we aimed to reshape route to catch a new vaccine for H. pylori. The formulation and details about the Chinese vaccine had been described frequently already. However, we mentioned to the all highlighted topics regarding this novel vaccine.
- 3- In agreement with reviewer, the English had been rechecked by the English expert.

**To Reviewer # 183445:**

- 1- In agreement with reviewer, the English had been rechecked by the English expert.
- 2- In agreement with reviewers, and also their comments, we think that Table 2 data contains redundancies and we prefer to remove it.

**To Reviewer # 00343118:**

- 1- In agreement with reviewer, the English had been rechecked by the English expert.

**To Reviewer # 00343118:**

No comment from him/her to response, though we respect all comments by him/her.
