Specific Comments to Authors:

authors should recognized work authors should identify the gap and highlight motivation and contributions authors should add related work in 2023 and 2024 such as A novel multi-modal fusion framework for early diagnosis and accurate classification of COVID-19 patients using X-ray images and speech signal processing techniques, Novel Framework for Alzheimer Early Diagnosis using Inductive Transfer Learning Techniques.

Answer: Your comment is constructive in that the basic references related to AI are essential. We have revised it accordingly.

For other suggestion from the editors, including language editing, we have done them accordingly.

Best wishes.
