

Dear Editor,

Please find enclosed the edited manuscript in Word format.

Title:

NUCLEAR IMAGING TO CHARACTERIZE ADRENAL TUMORS:
COMPARISON WITH MRI.

Authors:

Simone Maurea, MD, PhD, Pier Paolo Mainenti, MD, Valeria Romeo, MD,
Carmine Mollica, MD, PhD, and Marco Salvatore, MD

Name of Journal: *World Journal of Radiology*

ESPS Manuscript NO: 9127

The manuscript has been improved according to the suggestions of reviewers; in particular, revision has been made according to the suggestions of the reviewers:

- n. 01198134: as requested, arrows have been inserted in the figures; the style of references n. 26 and 30 has been revised;
- n. 00559125: as requested, the rationale of grouping non-hypersecreting adrenal adenomas in group 1 and 2 has been explained in the revised version of the manuscript (see patient population paragraph); as requested, discussion section has been shortened reducing in particular the discussion of Group 1 sub-paragraph.

The manuscript has been revised in order to improve language and style.

We certify that the manuscript is 'quality A' as far as english language is concerned, as requested by your policy.

Thank you again for publishing our manuscript in the *World Journal of Radiology*.

Sincerely yours,

Simone Maurea, MD, and Valeria Romeo, MD
