

Reviewer comments

We thank the reviewers for the review and constructive comments.

#Reviewer 2

Comment 1: “In first phrase (line) the term “contributing” is cited twice. I suggest to change one of them for a synonyms like “accounting”.”

Response: Thank you for the comment, we have changed the manuscript as below.

Changes in manuscript:

“Syncope forms a major part of medical in-flight emergencies contributing one-in-four in-flight medical events **accounting** to 70% of flight diversions.”
